Selecting the correct size liner:

Ideally the Liner should match the cable diameter, however a variance in tolerance of 3.0% is acceptable.

Liners can be made to order to any size between 0.015" & 1.680".

Allow 2-3 weeks delivery on sizes not listed.

LINERS:

Liner part numbers start with (L)

Example: L1.250 = 1.250" Dia.

BUSHINGS:

Bushing part numbers start with (B)

Example: B1.250 = 1.250" Dia.
