Selecting the correct size liner:

Ideally the Liner should match the cable diameter, however a variance in tolerance of 3.0% is acceptable.

Liners can be made to order to any size between 0.600" & 3.500".

Allow 2-3 weeks delivery on sizes not listed.

LINERS:

Liner part numbers start with (XL)

Example: XL1.250 = 1.250" Dia.

BUSHINGS:

Bushing part numbers start with (XB)

Example: XB1.250 = 1.250" Dia.
