Jan . 2003

There Are 3 Category Of Insert:

(A) Air - (W) Water/Steam - (AW) Air/Water/Steam

Part numbers that start with (A) are AIR inserts.

Part numbers that start with (W) are WATER/STEAM inserts.

Part numbers that start with (AW) are AIR/WATER/STEAM inserts.

The difference between the Air & Water/Steam Inserts are the jet sizes and number of jets.
 Small jets are used for air and large jets are used for water/steam use.

Note:

The larger water/steam jets will work with air but will consume a large volume of air.

The small air jets will not work with water/steam. (They will clog quickly)

Wireline Insert Sizes & Categories Available:

(AW category) (AW) = Air/Water/Steam Inserts

Part #	Description	Size Nominal	Size Range
AW1/8	Air/Water/Steam Insert	1/8"	0.110" - 0.130"
