

# 850-LPS-HOUSING

## 850-AIR/WATER INJECTOR CABLE WASHER

Designed for cleaning cables with water & air.

### CONNECTS TO STANDARD WATER HOSE FITTINGS

#### SYSTEMS OPERATION

Inside collar air wipers contain the water. (See flow diagram)

Two large return hoses direct the air & water out of the collar for disposal.

Both air and water are injected at the cable at a high impact force.

**Note:** The system is designed to connect to an ordinary low pressure water source.

#### CABLE CAPACITY

Min. Cable Dia. 0.048" ( 1.22 mm)  
Max. Cable Dia. 1.600" (4.6 mm)

#### AIR REQUIREMENT

Min. Air Capacity: 15 CFM @ 100 PSI  
Min. Air Pressure: 70 PSI  
Max. Air Pressure: 180 PSI

For most operations (20 cfm of air at 100 psi) is recommended.
